INTRODUCTION

Indian Cooperatives have played a significant role in the development of economy and more specifically development of agriculture and rural development. The agricultural credit cooperatives which are part of the Indian cooperative credit system have played an exemplary role in ensuring smooth flow of credit for agriculture and rural development. The Indian cooperative credit system throughout is responsible for the development of agricultural credit in India.

The institutional rural cooperative credit system (RCCS) more particularly credit delivery system has been envisaged as an effective channel for creating conducive environment for socio-economic development in the society. The RCCS consists of two wings namely Short Term (ST) and Long Term (LT). The ST cooperative credit structure deals with medium term credit also for agricultural purposes and it is federal in character. It is mostly based on a three tier pattern with the State Cooperative Banks (StCBs) at the Apex Level, District Central Cooperative Banks (DCCBs) at the intermediary level and Primary Agricultural Credit Societies (PACS) at the village level.

National Federation of State Cooperative Banks advised all Short Term Cooperative Credit Institutions viz., StCBs, DCCBs and PACS to furnish the information on the number of institutions which have completed more than 100 years of service to agriculture and Rural Development. As per the information received as on 20-11-2024, Eight StCBs have completed 100 years of rural credit and banking service in India. Similarly, 102 DCCBs have reported about their 100 years of existence and service in the area of rural credit and banking. At grass root level 1,310 PACS have completed 100 years of service in agricultural development. The current document provides the details of StCBs, DCCBs and PACS who have completed 100 years.
